

Dr. Larry Schechter, professor of Physics, presents newly created annual physics student competition award to James L. Anderson. The award is funded by private contributions to the OSU Foundation.

The Physics Department announces the opening of the first annual competition for undergraduates in Physics. A prize of \$100 will be awarded to the undergraduate submitting the best original paper on any subject in Physics. Judges will consist of a committee of graduate students. Suitable topics might include the solution of a problem growing out of the student's interest as stimulated by class assignment, the historical development of a concept, detailed design and analysis of new demonstration or laboratory equipment, etc. Each paper must include a bibliography of source material used.

The Judges' decision will be final; they will make at most one award and one honorable mention, but may withhold award if no papers of suitable quality are submitted. Deadline for submission of entries will be the first day of classes, Spring Term 1973. The award will be made at the last Department Colloquium of the 1972-73 academic year.
